

University of St Andrews

Research Expertise Database

Anna Clements
Project Manager, Business Improvements

akc@st-andrews.ac.uk
01334 462761

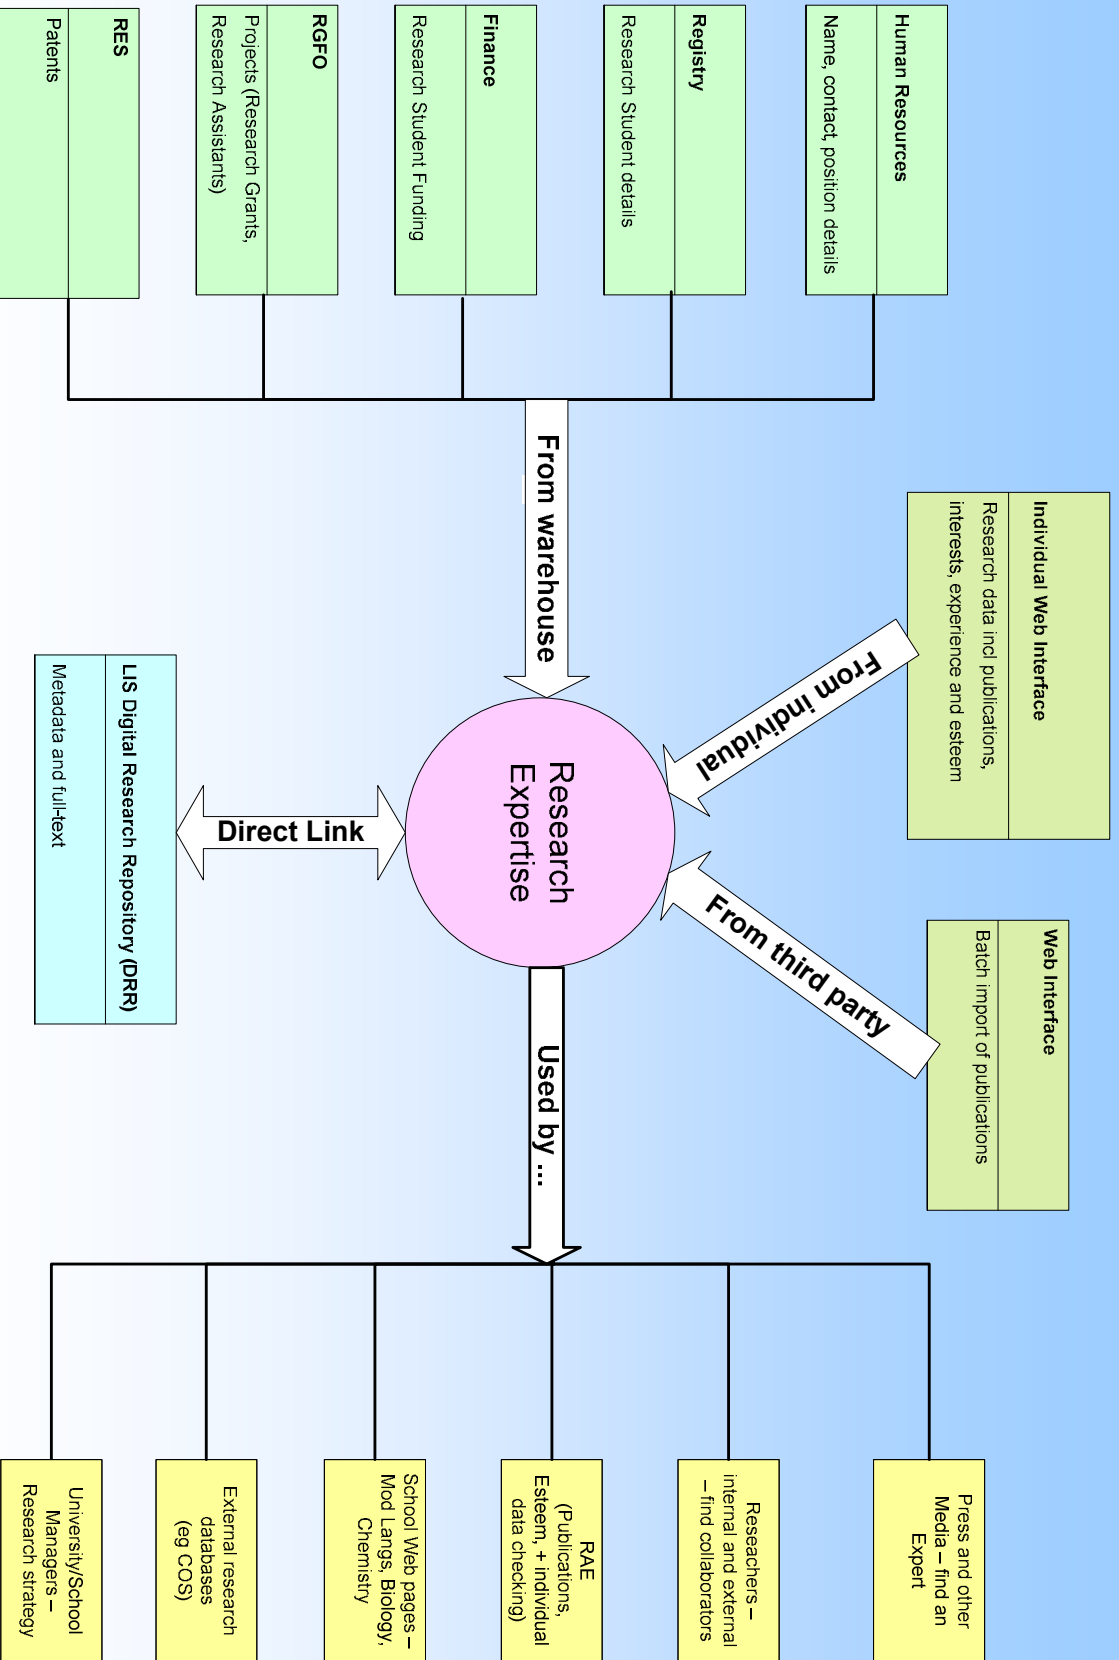

Overview

- Research Expertise database setup in Nov 2002 to provide single data source
- Covers all academic staff and other research-active staff
- Key role in RAE2008 data collection and collection

Research Expertise Database - Overview

Current Statistics

- Expertise details for 700 individuals
- 10000 + publications (1997 – current day)
- 7500 + esteem indicators, former positions, qualifications, honours and awards etc
- Live link to 3300 + projects
- Live link to 2500 + research students

Bringing data together ...

- Library : Full-text institutional repository
- Research Grants Finance Office : Grant applications and awards
- Research and Enterprise Services :
Published Patent information and Contracts
- Registry/RGFO : Research Students and Assistants
- Human Resources : name, contact details, school/department, post

Key Benefits

- Reduce (eliminate?) duplication of effort in collecting and maintaining the data
- One-stop view of research expertise and activity – bringing data from different sources together
- Confidence in data being complete, correct and current
- Public view of research expertise at St Andrews
